The death of a patriotic lady.—A letter from Charleston published in the New York World, says that the table upon which the Declaration of Independence was signed, is now in the possession of a lady of that city. On the 20th ult. she was urged by the Secessionists to permit them to use it for the signing of their Declaration. The lady told the committee who made the request, that rather than have the ordinance of secession signed thereon, she would burn the table to ashes.
